

REQUEST FOR PROPOSALS

Swan Quarter Dike – Maintenance Plan

Hyde County is soliciting written proposals from qualified individuals and firms to develop a Maintenance Plan for regular and long-term maintenance, including cost estimates, for the Swan Quarter Dike. The Swan Quarter Dike is a 17 mile barrier to minimize storm water impact on the Swan Quarter watershed. The Dike consists of earthen berms, vinyl sheet pile bulk heading, roadway storm water facilities, tide gates, and other related facilities. The purposes of the Maintenance Plan are to identify necessary regular and long-term maintenance of the Dike and to estimate costs of this maintenance for the purpose of providing for appropriate fee or assessment structure.

The Plan must be must be completed and submitted to the County by May 7, 2010.

A copy of the complete RFP may be obtained by sending an email to hydeco@hydecountry.gov or visiting the Hyde County Web Site at www.hydecountrync.gov.
