North Carolina

Hyde County Government to Update Website *Needs high-res images*

Hyde County Government needs your help! As the county's official website is being updated, they are requesting photos that focus on the unique aspects of Hyde County. These photos should best represent the communities of Hyde County and contribute to a unified website encompassing all areas of year-round living and working in Hyde County.

Photos should be submitted to the county manager at msmith@hydecountync.gov. Photos should be high resolution.

The county reserves the right to accept or reject photos that do not fit the mission of this project. By submitting the photos for this project, the owner releases them for publication.
